Summary

I am a self taught Java programmer starting his career, who knows how to use Javascript, SQL, HTML, JQuery and Java EE Web Technologies such as Servlets and JavaServer Pages.

While working I started learning Java over a period of six months. In this time I wrote the Oracle Certified Java Associate Exam and passing with 80% and currently I'm studying to write the Oracle Programmer and Web Development Certifications.

Skills

Java:

I have a broad familiarity with Java and many of it's frameworks and libraries, including the Java Concurrency package and multithreading, JDBC, collections, I/O and exception handling, object orientated programming and design patterns.

Web Frameworks:

In web development I am familiar with HTML5, CSS3, Bootstrap, EL, JSTL, Servlets, JavaServer Pages, JDBC, MySQL, Javascript and JQuery.

Education

Oracle Certified Java Associate
BA Motion Picture Medium -AFDA

Projects

I've created a primitive e-commerce website using HTML5, CSS3 and Java Servlet and JSP technologies to log in to the Java back end. I used MVC for the separation of concerns and created an additional data layer to access a MySQL database for information retrieval.
